13:00 - 14:00 Facciamo Musica – Wir machen Musik – Let's make music together! (STUDIO 49)
Let's make music together! You can't play an instrument, you can't read sheet music and you can't sing either? Perfect? Then you are exactly right here. But if you have already discovered music for yourself, then you are also invited. Why? This workshop is about getting a group of people to make music together and even play a piece together in the shortest possible time. For this we use the so-called Orff instruments, such as xylophones and glockenspiels, but also drums and other instruments. They all sound great and are easy to play. And the speaker Nicola Pangia will inspire you all, because he puts his skills of bringing people together and making music with them to work for you. Don't be put off, that he doesn't speak German, but improve your English or you can speak Italian anyway. We look forward to seeing you! To all children, parents, grandparents, teachers, educators, pedagogists - and all the colorful rest of this world! Music knows no borders! Registration in advance is requested:
